

Insulfoam

Sing Square Log Homes Inc

P.O. Box 1691

Mc Cleary, Wa. 98557

Re: Recycled Content of Insulfoam

Peter,

The material you purchase is an ASTM 578 C Type I, EPS product. It has a recycled content of 20%. It also has a long term stable R-Value, with a 20-year thermal performance warranty and has excellent dimensional stability, compressive strength and water resistant properties.

See the attached information, if you have any additional questions, please call.

Thanks,

Dan Michels
