

## The Best Deals on the Best Doors:

### Custom Options

We specialize in custom orders, so call us today to speak with a sales representative to discuss all details. We can modify our Sing panel products to fit specific needs concerning outer surface materials, core, and more.

### Sing Honeycomb Panel Doors Are... Strong

- Stronger than standard steel overhead doors
- Torsion Box grid
- Vertically aligned veneer core structure
- Knocking with 25lb weights doesn't damage our doors

### Torsion Box Technology

Sing Honeycomb brings torsion box strength to the housing industry. Patented Sing core tested in the University of Washington Engineering Lab reached over 660 PSI. We can even use 1/8" surface skin without jeopardizing the integrity of our panels because our technology is so advanced.

Matching set of Carriage Doors

# Sing Honeycomb Sectional Doors

## Trim, Finish & Hardware Upgrade Available

### Lightweight

- Up to 1/3 the weight of solid wood
- Foam embedded patented sing core
- The core is 80% air

### Stable

- Flatter than solid wood and doesn't warp
- Won't sag over time
- Because of the rigidity, our garage doors are air tight.

### Insulated

- R-Value up to 6.5
- Muffles sound

### Environmental

- Recycled foam
- Renewable veneer
- Saves heating energy
- Efficient Production

### Beautiful

- Natural wood finish
- Paint grade
- Skin stays flat & resists water

## Sectional Overhead Door

We now carry sectional overhead garage doors made of Sing Honeycomb Panels. You won't find garage doors this light and strong anywhere on the market.

Above: 9 foot by 7 foot Carriage Door

Above: 6 foot wide overhead door ready for trim or siding

## Enhance the Look of your Home

The garage door makes up 30% of the front view of a home. Let's make it a good first impression. Sing Honeycomb core and panels can be made into carriage doors of any size and finish to suit any style.

### Solid Wood Edging

on all four sides for hinge and lock
